

Annapolis Yacht Club Build-a-Boat Regatta Sika Challenge Cup June 24-25, 2006

Race Instructions for Manual Propulsion Class

Rules: The regatta will be governed by these instructions.

Notices to Competitors: Notices to competitors will be posted on the official notice board. The official notice board is the bulletin board outside the clubhouse at the lower level entrance to the Skipjack.

Changes to the Sailing Instructions: Any change to the Race Instructions will be posted 15 minutes before the race in which it will take effect. The Race Committee may elect to inform competitors of changes to the Race Instructions verbally via loud hailer prior to the heat in which the change will take effect.

Start: The Starting line will be between a staff supporting an orange flag on the end of the “L” dock, or on a boat moored at the “L” dock, and the downstream edge of an orange cylinder “pin” mark in Spa Creek. Boats will be assigned to a heat by the judges.

Start Sequence: All boats will start from a stationary position behind the starting line. Boats will be permitted to paddle up until a warning is announced from the committee boat. The starting sequence will be as follows:

| Starting Sequence | |
|-------------------|--|
| Time Before Start | Signal |
| 2 minutes | 2 long sounds |
| 1 minute | 1 long sound |
| 30 seconds | 3 short sounds |
| 20 seconds | 2 short sounds |
| 10 seconds | 1 short sound |
| 5 – 0 seconds | 5 short sounds at one second intervals and 1 long sound (or gun) at the start |

A false start by any of the competitors will be signaled by sounding multiple short horn blasts after the start signal and result in that fleet being recalled and restarted using the same procedure. Two false starts by the same boat in a single race will result in disqualification from that race.

Course: The course will be a triangle with 2 extra legs. Each heat will be a 5-leg race. From the start, proceed to mark #1 (round to starboard), then to mark #2 (round to starboard), then to the

starting line “pin” buoy (round to starboard.), then to mark #1 (round to starboard.), then back to the finish line. (See attached course diagram.).

Mark Rounding: Round all marks to starboard.

Finish: The finish line will be between a flag on the end of the “L” dock, or on a boat moored at the “L” dock, and a orange cylinder “pin” mark in Spa Creek. This is the same as the starting line except it will be crossed in the opposite direction. The boat is finished when any part of the boat or crew in its normal racing position crosses the finish line (i.e. the crew may not extend a bow sprit or throw a paddle across the finish line to gain an advantage). Finished boats must clear the finish line and attempt not to interfere with boats still racing. Any boat not clearing the finish line in a timely manor may be penalized or disqualified by the race committee.

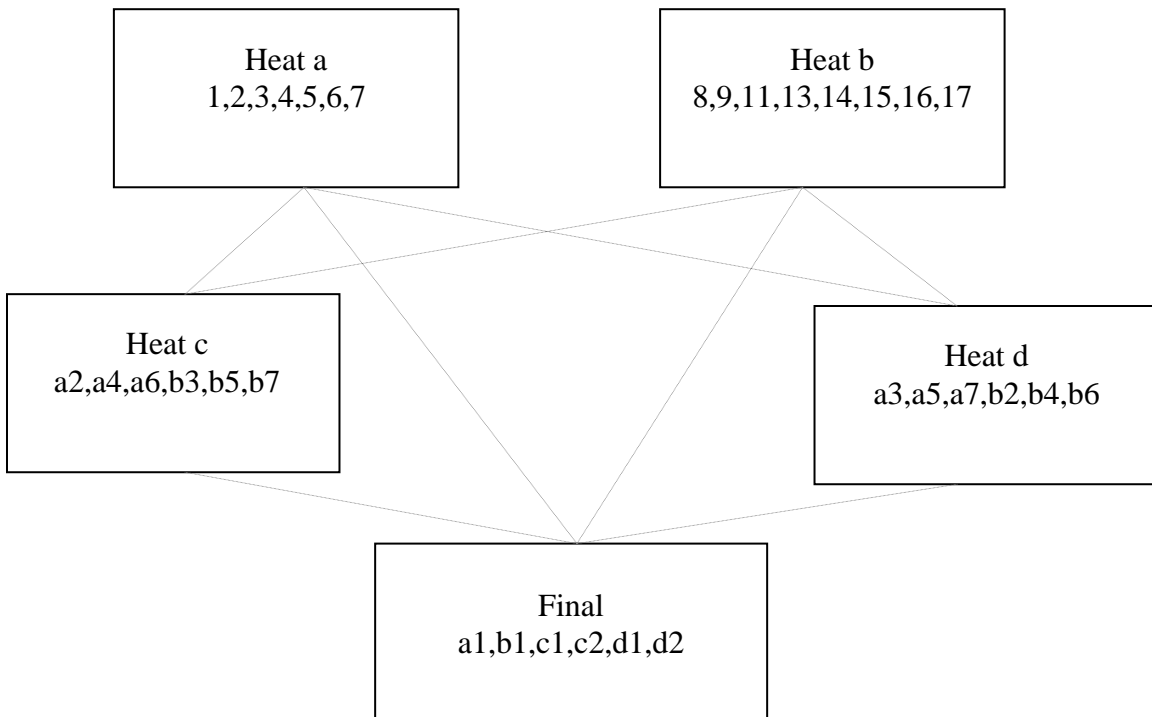

Order of Race for 2006 AYC Build-A-Boat Regatta

The number of heats will depend on the number of boats racing. A sample elimination series is shown in attachment A for 14 boats.

Safety

1. All crew must wear a PFD.
2. Paddles may not be used as weapons.
